Labsheet – More PHP

Question 1

Try all the sample code that have been provided in the lecture notes.

Question 2

Write the PHP code for the various classworks that we worked on in class.

Question 3

Write the PHP code for the following pages in your mini project:

1. Login functionality- check if username and password are correct
2. Registration – save new users in database
3. Add session to the pages that are only accessible to logged in users.
